Homework # 02:

 Please measure performance of your **MySQL** server using function **BENCHMARK(),** by executing the expression 'hello','goodbye' - 1000000000 times

```
-- MySQL Performance Benchmark

mysql> SELECT BENCHMARK(1000000000,ENCODE('hello','goodbye'));
+----------------------------------------------------------------+
| BENCHMARK(1000000000,ENCODE('hello','goodbye'))                |
+----------------------------------------------------------------+
| 0                                                              |
+----------------------------------------------------------------+
1 row in set (2 min 16.78 sec)
```
